PC Strands Pusher Machine

Describe:

- 1) LS strand pusher machine can push PC strand continuously .
- 2) It has the features of easy operation, reliable performance, efficiency significantly.
- 3) The machine reduces the labour, and widely used for large-scale bridges, and constitutive objects.
- 4) High performance with good quality
- 5) It is the main tool of through strand in building bridges and large building with Prestressing work.

2. Main features:

It is easy to operate and convenient to maintain. In the process, two people can complete the operation, it can reduce labour and improve work efficiency.

3. Technology parameters:

Model	Diameter of pc strand	Distance of pushing	Voltage	Motor	weight	Size
	mm	m	v	kw	kg	cm
LS-4	12 to 16	50	380/220	4	120	55×40×24
LS-5.5	12 to 16	150	380/220	5.5	180	64×44×24
LS-7	12 to 16	200	380/220	7.5	230	95×44×40
